

BC - Locating bearing, blind shaft

LC - Non-locating bearing, blind shaft

BP - Locating bearing, passing shaft

LP - Non-locating bearing, passing shaft

- See page 14 for technical features.
- Standard seal **"R"** - one piece nitrile rubber retainer with spring, see page 05. Should a different type of seal be requested, the dimensions of the columns "A" and "C" on the table can be modified, but our engineering department should be consulted for more information
- **Specification example:** HFR 157 BP = HFR housing, size 157, made of grey cast iron, prepared for 22215-K bearing and HA-315 adapter sleeve, for locating bearing and passing shaft, with R seal - nitrile rubber retainer with spring.

Housing	d		Bearing	Adapter sleeve	Dimensions (mm)									Weight (kg)
