

BC - Locating bearing, blind shaft

LC - Non-locating bearing, blind shaft

- See page 09 for technical features.
- Standard seal "TS" – radial labyrinth, see page 05.
- For applications with different bearing series please consult our Engineering Department.
- **Specification example:** SD-3136-BP = SD-31 housing, size 3136, made of grey cast iron with 4 holes on the base, prepared for 23136-K bearing and H-3136 adapter sleeve, for locating bearing and passing shaft, with TS radial labyrinth seal.
- N-SD-3138-BC = SD-31 housing, size 3138, made of nodular cast iron with 4 holes on the base, prepared for 23138-K bearing and H-3138 adapter sleeve, for locating bearing and blind shaft, with TS radial labyrinth seal.
- The type of lubrication must be informed on the purchase order.

BP - Locating bearing, passing shaft

LP - Non-locating bearing, passing shaft
